Affiliated to Osmania University, Management Program Approved by AICTE

Recognised by UGC u/s 2(f), an ISO 9001:2015 Certified Institution

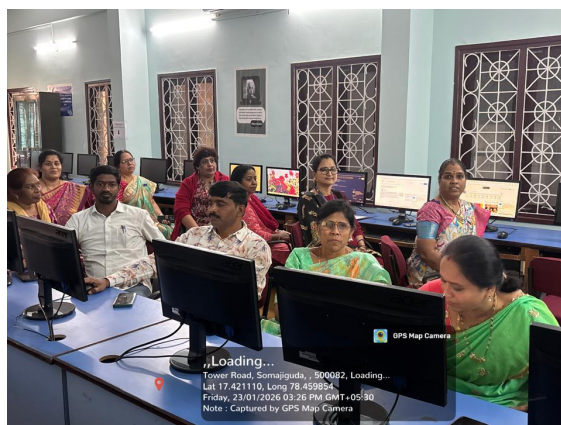

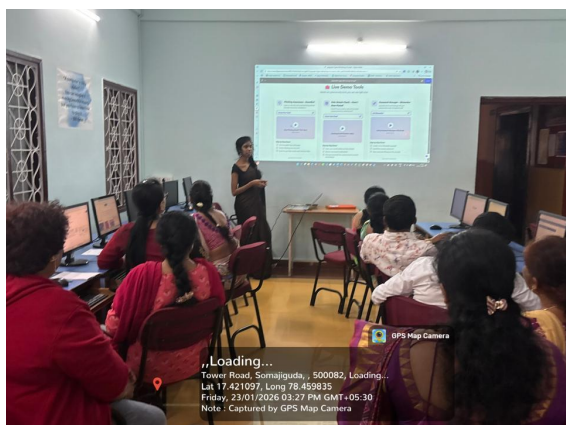

Accredited by NAAC with B++ Grade

Network Resource Center Report Academic Year 2025-2026

The Network Resource Center (NRC) organized an **Internet Safety Awareness Programme** for non-teaching staff with the objective of enhancing their understanding of internet safety practices and security measures related to handling data and digital resources. The programme created awareness about safe browsing practices, password security, phishing threats, and responsible use of institutional digital platforms, thereby promoting a secure and digitally responsible working environment within the institution.

In addition, a total of **28 mini projects** were successfully carried out by students utilizing the facilities of the Network Resource Center. These projects were undertaken across various programs and courses, providing students with opportunities to apply theoretical knowledge in practical scenarios, improve technical competencies, and develop analytical and problem-solving skills. The initiative reflects the institution's commitment towards experiential learning and the effective integration of ICT-enabled resources into the teaching-learning process.

Internet Safety Awareness session for Non-Teaching Staff & Mini Projects Demonstration.
